PROJECTS

Java 2D Racing Game — Personal Project **October 2026**

- Developed a playable 2D racing game using Java Swing, with keyboard-controlled steering, animated road graphics, and moving traffic.
- Used Java event listeners and a Swing Timer to update gameplay, generate randomized obstacles, and detect collisions.
- Added score tracking, progressively faster gameplay, and game-over/restart functionality to improve replayability.

Raincheck Weather App — Personal Project **November 2026**

- Built a responsive weather app with HTML, CSS, and JavaScript to display current conditions, temperature, humidity, and wind speed.
- Integrated weather API requests, city search, and dynamic updates to display weather conditions.
- Implemented theme switching, input validation, and error handling; deployed the application using GitHub Pages.

EXPERIENCE

Cashier — Goodwill **May 2026 – Aug 2026**
Houston, TX

- Processed 100+ cash, credit, and debit transactions per shift while maintaining register accuracy.
- Met or exceeded daily performance and round-up goals in a high-volume retail environment.
- Balanced customer service, register responsibilities, and store organization under pressure.

Retail Sales Associate — Forever 21 **May 2023 – Aug 2023**
Deerbrook Mall, Houston, TX

- Assisted 40–60 customers per shift and accurately processed 30–40 transactions daily.
- Helped reduce checkout wait times during peak hours through efficient customer service.

Retail Sales Associate — Rue 21 **Oct 2022 – Feb 2023**
Deerbrook Marketplace, Houston, TX

- Supported 20–40 customers per shift with product questions, item searches, and fitting-room assistance.
- Promoted rewards enrollment, contributing to a 10% increase in sign-ups during shifts.
